Sec. 24. Minnesota Statutes 2022, section 290.0132, subdivision 26, is amended to read:

Subd. 26. Social Security benefits. (a) A portion of taxable Social Security benefits is
determined as a subtraction. The taxpayer is allowed a subtraction equal to the greater
of the simplified subtraction allowed under paragraph (b) or the alternate subtraction
determined under paragraph (e).

(b) A taxpayer's simplified subtraction equals the amount of taxable social security
benefits, as reduced under paragraphs (c) and (d).

(c) For a taxpayer other than a married taxpayer filing a separate return with adjusted
gross income above the phaseout threshold, the simplified subtraction is reduced by ten
percent for each $4,000 of adjusted gross income, or fraction thereof, in excess of the
phaseout threshold. The phaseout threshold equals:

1. $100,000 for a married taxpayer filing a joint return or surviving spouse;
2. $78,000 for a single or head of household taxpayer; and
3. for a married taxpayer filing a separate return, half the amount for a married taxpayer
filing a joint return.

(d) For a married taxpayer filing a separate return, the simplified subtraction is reduced
by ten percent for each $2,000 of adjusted gross income, or fraction thereof, in excess of
the phaseout threshold.

(e) A taxpayer's alternate subtraction equals the lesser of taxable Social Security benefits
or a maximum subtraction subject to the limits under paragraphs (b), (e), and (d) (f), (g),
and (h).

(f) For married taxpayers filing a joint return and surviving spouses, the maximum
subtraction under paragraph (c) equals $5,150 $5,840. The maximum subtraction is reduced
by 20 percent of provisional income over $78,180 $88,630. In no case is the subtraction
less than zero.

(g) For single or head-of-household taxpayers, the maximum subtraction under
paragraph (c) equals $4,020 $4,560. The maximum subtraction is reduced by 20 percent of
provisional income over $61,080 $69,250. In no case is the subtraction less than zero.

(h) For married taxpayers filing separate returns, the maximum subtraction under
paragraph (c) equals one-half the maximum subtraction for joint returns under paragraph
(c) (d). The maximum subtraction is reduced by 20 percent of provisional income over
one-half the threshold amount specified in paragraph (b) (d). In no case is the subtraction less than zero.

(2) (i) For purposes of this subdivision, "provisional income" means modified adjusted gross income as defined in section 86(b)(2) of the Internal Revenue Code, plus one-half of the taxable Social Security benefits received during the taxable year, and "Social Security benefits" has the meaning given in section 86(d)(1) of the Internal Revenue Code.

(4) (j) The commissioner shall adjust the maximum subtraction and phaseout threshold amounts in paragraphs (b) to (c) and (d) as provided in section 270C. The statutory year is taxable year 2019-2023. The maximum subtraction and threshold amounts as adjusted must be rounded to the nearest $10 amount. If the amount ends in $5, the amount is rounded up to the nearest $10 amount.

**EFFECTIVE DATE.** This section is effective for taxable years beginning after December 31, 2022.

Sec. 26. Minnesota Statutes 2022, section 290.0132, is amended by adding a subdivision to read:

(2) $12,500 for all other filers.

(b) For a taxpayer with adjusted gross income above the phaseout threshold, the subtraction is reduced by ten percent for each $2,000 of adjusted gross income, or fraction thereof, in excess of the threshold. The phaseout threshold equals:

(1) $100,000 for a married taxpayer filing a joint return or surviving spouse;

(2) $78,000 for a single or head of household taxpayer; or

(a) In addition to the exhibit indicating the level normal cost, the actuarial valuation of the retirement plan must contain an exhibit for financial reporting purposes indicating the additional annual contribution sufficient to amortize the unfunded actuarial accrued liability and must contain an exhibit indicating the additional contribution sufficient to amortize the unfunded actuarial accrued liability. For the retirement plans listed in subdivision 8, paragraph (a), but excluding the legislators retirement plan, the Bloomington Fire Department Relief Association, and the local monthly benefit volunteer firefighter relief associations, the additional contribution must be calculated on a level percentage of covered payroll basis by the established date for full funding in effect when the valuation is prepared, assuming annual payroll growth at the applicable percentage rate set forth in the appendix described in subdivision 8, paragraph (c). For the legislators retirement plan, the additional annual contribution must be calculated on a level annual dollar amount basis.

(b) For any retirement plan other than a retirement plan governed by paragraph (d), (e), (f), (g), (h), (i), or (j), if there has not been a change in the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a change in the benefit plan governing annuities and benefits payable from the fund, a change in the actuarial cost method used in calculating the actuarial accrued liability of all or a portion of the fund, or a combination of the three, which change or changes by itself or by themselves without inclusion of any other items of increase or decrease produce a net increase in the unfunded actuarial accrued liability of the fund, the established date for full funding is the first actuarial valuation date occurring after June 1, 2020.

(c) For any retirement plan, if there has been a change in any or all of the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a change in the benefit plan governing annuities and benefits payable from the fund, a change in the actuarial cost method used in calculating the actuarial accrued liability of all or a portion of the fund, or a combination of the three, and the change or changes, by itself or by themselves and without inclusion of any other items of increase or decrease, produce a net increase in the unfunded actuarial accrued liability in the fund, the established date for full funding must be determined using the following procedure:

(i) the unfunded actuarial accrued liability of the fund must be determined in accordance with the plan provisions governing annuities and retirement benefits and the actuarial assumptions in effect before an applicable change;
(ii) the level annual dollar contribution or level percentage, whichever is applicable, needed to amortize the unfunded actuarial accrued liability amount determined under item (i) by the established date for full funding in effect before the change must be calculated using the investment return assumption specified in subdivision 8 in effect before the change;

(iii) the unfunded actuarial accrued liability of the fund must be determined in accordance with any new plan provisions governing annuities and benefits payable from the fund and any new actuarial assumptions and the remaining plan provisions governing annuities and benefits payable from the fund and actuarial assumptions in effect before the change;

(iv) the level annual dollar contribution or level percentage, whichever is applicable, needed to amortize the difference between the unfunded actuarial accrued liability amount calculated under item (i) and the unfunded actuarial accrued liability amount calculated under item (iii) over a period of 30 years from the end of the plan year in which the applicable change is effective must be calculated using the applicable investment return assumption specified in subdivision 8 in effect after any applicable change;

(v) the level annual dollar or level percentage amortization contribution under item (iv) must be added to the level annual dollar amortization contribution or level percentage calculated under item (ii);

(vi) the period in which the unfunded actuarial accrued liability amount determined in item (iii) is amortized by the total level annual dollar or level percentage amortization contribution computed under item (v) must be calculated using the investment return assumption specified in subdivision 8 in effect after any applicable change, rounded to the nearest integral number of years, but not to exceed 30 years from the end of the plan year in which the determination of the established date for full funding using the procedure set forth in this clause is made and not to be less than the period of years beginning in the plan year in which the determination of the established date for full funding using the procedure set forth in this clause is made and ending by the date for full funding in effect before the change; and

(vii) the period determined under item (vi) must be added to the date as of which the actuarial valuation was prepared and the date obtained is the new established date for full funding.

(d) For the general employees retirement plan of the Public Employees Retirement Association, the established date for full funding is June 30, 2048.
(e) For the Teachers Retirement Association, the established date for full funding is June 30, 2048, through June 30, 2025. Beginning July 1, 2025, the established date for full funding is June 30, 2053.

(f) For the correctional state employees retirement plan and the State Patrol retirement plan of the Minnesota State Retirement System, the established date for full funding is June 30, 2048.

(g) For the judges retirement plan, the established date for full funding is June 30, 2048.

(h) For the local government correctional service retirement plan and the public employees police and fire retirement plan, the established date for full funding is June 30, 2048.

(i) For the St. Paul Teachers Retirement Fund Association, the established date for full funding is June 30, 2048.

(j) For the general state employees retirement plan of the Minnesota State Retirement System, the established date for full funding is June 30, 2048.

(k) For the retirement plans for which the annual actuarial valuation indicates an excess of valuation assets over the actuarial accrued liability, the valuation assets in excess of the actuarial accrued liability must be recognized as a reduction in the current contribution requirements by an amount equal to the amortization of the excess expressed as a level percentage of pay over a 30-year period beginning anew with each annual actuarial valuation of the plan.

(b) In the case of a municipality or independent nonprofit firefighting corporation furnishing fire protection to other municipalities as evidenced by valid fire service contracts, joint powers agreements, resolutions, and other supporting documents filed with the commissioner under section 477B.02, subdivision 5, the distribution must be adjusted proportionately to take into consideration the crossover fire protection service. Necessary adjustments must be made to subsequent apportionments.

covered by the statewide volunteer firefighter plan as specified in paragraph (e).

municipality or independent nonprofit firefighting corporation covered by the statewide
plan as certified by the executive director of the Public Employees Retirement Association

The payment is equal to the amount of fire state aid apportioned to the applicable fire state aid recipient under section 477B.03.

(c) If the commissioner of revenue does not receive a financial compliance report described in section 6.495, subdivision 3, for a relief association, the amount of fire state aid apportioned to a municipality or independent nonprofit firefighting corporation under section 477B.03 for that relief association must be withheld from payment to the Public Employees Retirement Association or the municipality. The commissioner of revenue must issue a withheld payment within ten business days of receipt of a financial compliance report under section 6.495, subdivision 3. the commissioner must reduce the aid a municipality or independent nonprofit firefighting
corporation is to receive by the amount overpaid over a period of no more than three years.
If an overpayment equals or is less than ten percent of the most recently paid aid amount,
the commissioner must reduce the next aid payment occurring in 30 days or more by the
amount overpaid.

(c) In the event of an underpayment, the commissioner must distribute the amount of
underpaid funds to the municipality or independent nonprofit firefighting corporation over
a period of no more than three years. An additional distribution to a municipality or
independent nonprofit firefighting corporation must be paid from the general fund and must
not diminish the payments made to other municipalities or independent nonprofit firefighting

payment under this subdivision is limited to three years after the payment was issued.
